Republishing a video stream

WCS allows republishing (rebroadcasting) of a video stream to:

- Another RTMP server
  - YouTube
  - Facebook
  - Wowza
  - WCS
  - Azure Media Services
- Another WCS server via WebRTC
- Redirecting a stream to a SIP call using /call/inject_stream
- Redirecting an audio file to a SIP call using /call/inject_sound
