

# Building the examples

- 1. [Download source code](#)
  - [GitHub](#)
  - [NPM](#)
- 2. [Build the examples](#)
- 3. [Deploy examples to web server](#)

## 1. Download source code

### GitHub

```
git clone https://github.com/flashphoner/sfu_sdk.git
cd sfu_sdk/examples
```

### NPM

```
npm init
npm install @flashphoner/sfusdk-examples
cd node_modules/@flashphoner/sfusdk-examples
```

## 2. Build the examples

```
nvm use 16
npm install && npm run build
```

## 3. Deploy examples to web server

```
mkdir -p /var/www/html/flashphoner-sfu-test
cp -r dist/* /var/www/html/flashphoner-sfu-test
```
