

Republishing to Facebook

- [Preparing to the test](#)
- [Preparing to broadcasting to Facebook](#)
- [Running a broadcast from a web camera to the WCS server](#)
- [Stream republishing configuration](#)
- [Checking if Facebook receives the stream](#)

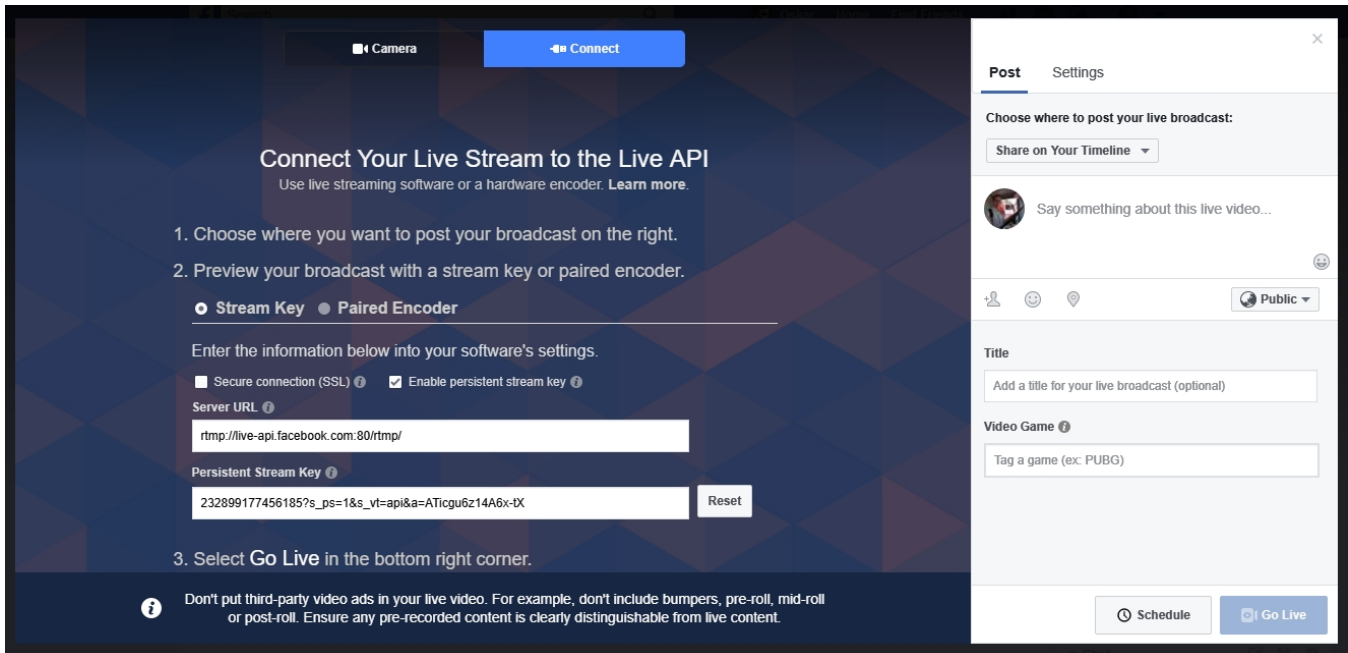

Preparing to the test

1. For the test we use:

- the demo server at demo.flashphoner.com;
- the [Two Way Streaming](#) web application to publish streams;
- the Chrome browser and the [REST client](#) to send REST queries.

Preparing to broadcasting to Facebook

2. Create [live streaming](#) in Facebook. Check the "Enable persistent stream key" option. Copy the URL of the server and the stream key from the Facebook page:

3. In the WCS settings file, [flashphoner.properties](#), add the following line:

```
rtmp_transponder_stream_name_prefix=
```

Restart WCS.

Running a broadcast from a web camera to the WCS server

4. Open the Two-way Streaming app. Click the Connect button, then specify the stream key from Facebook under the "Local" window, and click Publish:

ESTABLISHED

Stream republishing configuration

On November 1st, 2019, the Real-time Messaging Protocol (RTMP) will be deprecated from the Facebook services. RTMPS (RTMP over a TLS /SSL connection) will continue to be supported with [rtmps://live-api-s.facebook.com:443/rtmp/](https://live-api-s.facebook.com:443/rtmp/)

5. Open the [REST client](#). Send the /push/startup query to the WCS server, and in the query parameters specify the stream key in the "streamName" parameter and the Facebook server URL in "rtmpUrl":

Checking if Facebook receives the stream

6. Open the Facebook page where the live invitation is located. Enter the live stream editing page:

Camera

Connect

PREVIEW

 Don't put third-party video ads in your live video. For example, don't include bumpers, pre-roll, mid-roll or post-roll. Ensure any pre-recorded content is clearly distinguishable from live content.

PostSettings

Choose where to post your live broadcast:

Share on Your Timeline

 Say something about this live video...

Public

Title

Add a title for your live broadcast (optional)

Video Game

Tag a game (ex: PUBG)
